Claim Rejections - 35 USC § 112

Claims 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the claims a apparatus programmed to execute a trade in an immunizing instrument having a second sensitivity value substantially equal in magnitude and opposite in value of the first sensitivity value; and programmed to execute a trade a qualifying instrument having a third sensitivity value substantially equal to the first Sensitivity value, thereby reducing earnings volatility in derivative account wherein a change in mark-to-market value of the derivative account is accounted for through quarterly earnings is vague and indefinite as to if the processor is programmed to account for the reduction in earnings. Moreover, it is not clear how the system determines whether to execute the trade without instructions to determine the immunizing instrument based on a stored database of accounting rules characterizing changes in value of the immunizing instrument as subject to accounting as earnings, and instructions to determine the qualifying instrument based on the stored database of accounting rules characterizing changes in value of the qualifying instrument as subject to accountings as other comprehensive income (OCI).

Amending claims 16 with the language of claim 17 will place this case in condition for allowance.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH

shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
